

Don't buy pets from pet shops while homeless animals die!

Resist the temptation to buy that gorgeous kitten or puppy in the window. Because this lucrative pet shop market exists, backyard breeders and puppy mills continue to churn out more and more poor puppies and kittens, whilst hundreds of thousands of unwanted cats and dogs are killed in pounds every year.

Thousands of innocent animals are put to death every year in Australia simply because too many are bred and there are not enough caring homes.

Our campaign mission is to:

- Educate all potential pet owners why they **shouldn't** buy their companion animals from pet shops
- Lobby Federal and State Government to **ban** the sale of animals in pet shops

Stop and think ... imagine the conditions under which this poor sick dog lives. She is breeding **non-stop** so backyard breeders and puppy mills can supply pet shops!

One of our Supporters, Clover Moore, Lord Mayor of Sydney and Independent Member for Bligh says:

"We're campaigning to stop impulse buying of pets. Impulse buying contributes to the tragic dumping of animals, which threatens our environment and results in animals being put down. There should be a total ban on the display and sale of pets from pet shops in major shopping areas and markets ... It's inhumane and shocking that organisations such as ... pounds are forced to euthanase many thousands of animals."
