## Newsletter #2a, February 2010

Welcome to our second Newsletter! We have been growing rapidly and rehoming more and more pets: dogs, cats, and even a couple of guinea pigs.

### Growing and Saving

We have saved well over 500 pets in the last 18 months, and we currently have over 80 pets in foster care. Your help has been instrumental in saving lives. This is a mammoth effort and one to which you have all contributed. CONGRATULATIONS.

As you all know, without Sue's determination and *terrier* like tenacity, and great personal sacrifice, this would not have been achieved. Sue, more than anyone, is responsible for this huge, wonderful effort. Thank You.

We have two new sponsors (below). Please support them so they can donate to us.

### New Sponsor: Petitude

We are happy to welcome a new sponsor, [Petitude](http://Petitude) online pet store. I have purchased from them many times and have always been happy with their products and service. I particularly love their harnesses. They sell all sorts of great

priced, quality pet products including clothes, coats, bags, collars, harnesses, crates, toys, books, etc. They have *FREE shipping to anywhere in Australia.*

Please support them and us by shopping online at <http://www.petitude.com.au/>

**When you checkout, enter coupon code "SHOP4ACAUSE" and Dog Rescue Newcastle will receive 15% of whatever you spend!**

Please help them to help us. Spread the word to everyone you know about this great offer. It is valid until 31 May 2010.

### Special e-book Offer

**Make a \$20 donation to Dog Rescue Newcastle and receive a free electronic book!** These are e-books, not printed, they are emailed to you.

Wilhelmina Ford, the author of two dog health care books, is very kindly donating them to us. To purchase a book, please send an email to

[dogrescuenewcastle@gmail.com](mailto:dogrescuenewcastle@gmail.com)

You can choose either of these books:

### **The Real Deal: Dog Food, Nutrition & Health**

This 70-page e-book is aimed at giving you, as a dog owner, as much information as possible about the food that goes into your dog's diet so you can be informed

about the best diets, nutrition requirements and balance in your dog's diet should actually be.

An eye-opening e-book, which lifts the lid off what is really in canned dog food (with a comprehensive listing of additives, preservatives and meats), how the pet food industry

actually markets their food to you, and how the industry is regulated. It is guaranteed it to shock you and make you think twice about what is going into the mouth of your dog.

This e-book also draws on home cooking for your dog and various other diets you can choose from, along with how the training of your dog from an early age can affect its behaviour towards food and ultimately its nutritional levels and diet.

### **Synergistic Dog Health & Well-Being**

This 70 page e-book is aimed at giving you every avenue possible for your dog's health, longevity and well-being on a physical, emotional and psychological level. This e-book will guide you through the many different paths to go down in order to give your dog the most comprehensive care possible in times of illness, sickness, stress and even old age.

Many different illness's dogs have can be attributed to some degree to emotional imbalances and in most cases when you alleviate the emotional

imbalance the dog has a better chance at recovery and a much healthier one as these avenues are holistic and natural.

This e-book uncovers the difference between conventional veterinarian

medicine and holistic natural practices. It offers you the benefits of caring for your dog in a natural way, such as through flower essences or herbs found in your own garden or kitchen.

This e-book is great for those dogs suffering emotional trauma or those who have separation anxiety or continually get ill – It will give you an upper hand and also create a much more balanced, happier and healthier dog.

### **Can You Foster ONE Little Kitten?**

We need your help again, although we are "Dog" Rescue Newcastle, we want to help all animals in need and right now, there are far too many cats and kittens being killed daily. This is a needless waste of life, so now we are going to try to help a few kittens.

This is where our carers are needed. Would any of you consider (or ask relatives and friends) taking just ONE kitten or cat and fostering it until a home is found? This will not be as quick as rehoming dogs, but eventually, all of these gorgeous, deserving animals will find loving homes. We just need to buy them a bit of time.

At the moment we are offering these cats and kittens for the unheard of price of only \$50 (or some people might like to donate some extra). This includes desexing, vaccination and microchipping. We are subsidising this price so that these cats and kittens can find loving homes

where they can be part of a family and not end up dead.

If you are willing to foster or adopt just ONE, and ask others to do the same, please ring Sue or Anne. We can then ring the Rangers and save a life. Please reply soon, their time is very limited.

### **Our Online Presence**

We have been building a bigger online presence to try and get the word out about our pets in need of new homes. In addition to our website

[www.dogrescuencastle.com.au](http://www.dogrescuencastle.com.au) we can now also be found on

Join our Facebook group:

### **NBN Community Service Ad**

NBN very kindly ran a Community Service Announcement for us during November last year. You may have seen it. It consisted of a simple slide show of some of our available dogs with a voice over asking people to consider adopting a rescue dog. It was very successful in raising awareness of our group, especially to people without Internet access. Sue received many more phone calls and the number of visits to our website doubled. Since the ad, our number of website visits remains nearly as high as while the ad was running. Thank you very much to NBN.

### **Can You Help a Kelpie?**

We urgently need a new foster home or forever home for Chad, a beautiful, young adult kelpie. He is a very friendly dog and has basic obedience training. He is very

active would enjoy a home with a large yard or to be taken on a daily run.

Chad would be good with older kids and loves other dogs. His coat is beautiful and thick and he is a really good looking boy.

If you are able to foster or adopt Chad (below), please ring Sue on 02-4954-2234.

### **Featured Pet: Tiny, Blue Heeler**

Our currently featured pet is Tiny. She is a Blue Heeler crossed with a smaller dog so she is only half the size of an average Blue Heeler. She is also totally deaf. She is our featured dog because we need to find her a permanent home sooner rather than later because she isn't getting along particularly well with her foster family's other dog. Please print the poster (next page) for Tiny and put it up anywhere you can. If you can't print, please email or ring us for some posters. Thank you.
